HEALTH & SAFETY BAN ON AEROSOL PRODUCTS

Due to the increasing number of reports we have received, both from students, parents and staff, of allergic reactions caused to students through the use of aerosols, these items are banned in our Academy.

Pressurised aerosol products emit unnecessary volatile organic chemicals and produce a fine mist which is easily inhaled and absorbed into the blood stream and which can produce severe allergic reactions, particularly for students with asthma.

Students are asked to use pump sprays, roll on deodorants and other safer products to protect their own health and that of their fellow students.

As in the case for other banned items, staff will confiscate any aerosol products found in school.

Please support us to ensure the health and safety of our students.
